2018 Physical Inventory To Run Late-September Through Mid-December

Bendix (Bendix Commercial Vehicle Systems LLC and Bendix Spicer Foundation Brake LLC) will conduct 2018 physical inventory activities at a majority of our North American facilities over a staggered schedule covering late-September through mid-December 2018. The inventories at our Sparks, NV and Montreal, Canada-based Distribution Centers as well as our Huntington, IN main plants are excluded from the 2018 action.

During the scheduled inventory period, each impacted Bendix production facility will be in complete shut down. Only “truck down” emergency air shipments will be addressed by the location during this brief period.

Bendix facilities included in the 2018 inventory activities include:

United States:

<u>Location</u>	<u>Plant Code</u>	<u>Inventory Timing</u>
Huntington Modules Center	3135	October 29 – 30, 2018
Bowling Green Main Plant	3916	October 25 – 28, 2018
Bowling Green Tool Crib	----	November 14 – 16, 2018
Huntington Tool Crib	----	October 24 – 26, 2018
Huntington PSC Inventory	----	September 27 – 28, 2018
